## **IHPBA INDIAN CHAPTER**

**HPB SURGERY CERTIFICATE COURSE**

Department of Surgical Gastroenterology  
& Liver Transplantation

Sir Ganga Ram Hospital, New Delhi

**SEPT 11 - 15, 2017**

## **REG. FEES**

**RS.12,000/- (RESIDENTIAL)**

**RS.8000/- (NON-RESIDENTIAL)**

### **EMINENT INVITED FACULTY**

Dr. Adarsh Chaudhary  
Dr. Amit Rastogi  
Dr. Anil Aggarwal  
Dr. Anil Arora  
Dr. A. S. Soin  
Dr. Avinash Supe  
Dr. Chirag Desai  
Dr. Chetan Kantharia

Dr. Darius Mirza  
Dr. G V Rao  
Dr. H .Ramesh  
Dr. Jaya Sood  
Dr. Kishan Rawat  
Dr. Mandhir Kumar  
Dr. Monika Jain  
Dr. Neerav Goyal

Dr. Prakash Shastri  
Dr. Promila  
Dr. Peush Sahani  
Dr. Piyush Ranjan  
Dr. P .Senthilnathan  
Dr. Praveen Bhatia  
Dr. Ravi Mohanka  
Dr. Rajan Saxena

Dr. Sadiq Sikora  
Dr. Samarjit Singh Ghuman  
Dr. Saumitra Rawat  
Dr. Shailesh Shrikhande  
Dr. Shyam Aggarwal  
Dr. Siddharth Mehrotra  
Dr. Sudhir Kalhan  
Dr. Sujoy Pal

Dr. Sudeep Shah  
Dr. Subash Gupta  
Dr. T D Yadav  
Dr. Vikas Singla  
Dr. VK Kapoor

### **PATRONS**

Dr. D.S. Rana  
Dr. Samiran Nundy

### **COURSE DIRECTOR**

Dr. Naimish Mehta

### **COURSE ORGANIZING TEAM**

Dr. Saumitra Rawat  
Dr. Amitabh Yadav  
Dr. Shailendra Lalwani  
Dr. Vivek Mangla  
Dr. Siddharth Mehrotra  
Dr. Suresh Singhvi  
Dr. Ushasth Dhir

& Liver Transplantation  
Sir Ganga Ram Hospital, New Delhi*

# **PROGRAM SCHEDULE** **SEPT 11 - 15, 2017**

### **DATE**

### **PROGRAM**

11/9/2017

#### **Gall Bladder - Topics Covered**

Safe cholecystectomy  
Cholesystectomy in difficult situations  
Gall Stones & CBD Calculi - What next?  
Choledochal cyst-Techniques and tips  
Post cholecystectomy bile duct injury - various scenarios  
Bile duct strictures  
Hepatolithiasis and atrophy hypertrophy complex of liver  
Inauguration  
Imaging in Hilar mass/stricture  
Critical issues in Hilar Cholangiocarcinoma  
Percutaneous transhepatic biliary drainage, stenting and  
Portal Vein Embolisation- Indications and techniques  
GB Polyp  
Incidental Ca GB  
Algorithmic approach to management decisions in Gall bladder Ca  
Segmentectomy 4B/5- How to perform  
Video lecture: Laparoscopic approach to Gall bladder cancer

12/9/2017

#### **Pancreas - Topics Covered**

Diagnosis and severity scoring in acute pancreatitis  
Acute pancreatitis: what are the paradigm shifts  
Interpretation of CT/MRI in pancreatic diseases  
Cystic Tumors of Pancreas  
Medical and Endoscopic management of chronic pancreatitis  
Surgical procedures for chronic pancreatitis  
Does the problem stop after Surgery in Chronic pancreatitis  
Pancreatic Trauma - Diagnosis and management  
Whipple's procedure - How I do it? Open approach  
Whipple's procedure - How I do it? Laparoscopic approach  
Techniques of pancreatico-enteric anastomoses  
Locally Advanced Pancreatic neoplasm  
Complications of Pancreaticoduodenectomy  
Pancreatic Neuro-Endocrine tumours  
DEMO - Hands-On

## **PROGRAM SCHEDULE**

### **SEPT 11 - 15, 2017**

#### **DATE**

#### **PROGRAM**

**13/9/2017**

##### **PHt & Liver Surgery - Topics Covered**

Extrahepatic portal vein obstruction (EHPVO)  
Portal biliopathy  
Non Hepatic surgery in portal Hypertension  
Medical management of Portal hypertensive bleed  
Current role of portosystemic shunt operations  
Interpretation of LFT, diagnosis of Hepatitis - What the HPB Surgeon must know  
Liver Anatomy – the radiologist's insight  
Surgical anatomy of liver: surgeon's perspective  
Approach to Liver SOL  
Perioperative optimisation for liver resection  
Techniques of parenchymal transection  
Loco-regional therapies for HCC  
DEMO

**14/9/2017**

##### **Liver & Liver Transplantation - Topics Covered**

Vascular control in Liver surgery  
Liver resection in cirrhotics  
Innovative techniques in Liver resection  
Complications of liver resection and management  
HCC: resection vs transplantation  
Donor Hepatectomy - tips and tricks  
Recipient Hepatectomy  
Implantation technique including vascular reconstruction  
Post Transplant Complications  
Posterior sectionectomy  
Dual lobe liver transplantation  
Management of Hyatid Cyst of Liver  
Colorectal Liver metastases - management options  
Multivisceral transplant  
Abdominal Organ retrieval

## **PROGRAM SCHEDULE**

### **SEPT 11 - 15, 2017**

#### **DATE**

#### **PROGRAM**

15/9/2017

##### **Miscellaneous and Certificate Examination - Topics Covered**

Antibiotic therapy: how can we use optimally?  
Anaesthesia in HPB Surgery  
Role of PET scan in HPB Surgery  
Chemotherapy in HPB - has it changed?  
Role of EUS in HPB  
Importance of Research in HPB Surgery  
Examination and feedback  
Valedictory Function

## **IHPBA INDIAN CHAPTER** **HPB SURGERY CERTIFICATE COURSE**

& Liver Transplantation  
Sir Ganga Ram Hospital, New Delhi*

### **HANDS-ON COURSE DETAILS**

**11 – 15 SEPTEMBER, 2017**

The course will cover the entire spectrum of technical aspects pertaining to liver and pancreatic surgery. Participants will be able to perform, portal vein resection and reconstruction, pancreatic resections and pancreaticojejunal & hepaticojejunal anastomosis on the harvested animal tissue model. This will go a long way in easing out the learning curve and attaining the required skill sets in order to perform these surgeries and ensure good outcomes. While a major part of the time will be dedicated to the hands on training, sometime will also be dedicated to an interactive case based didactic session to clarify decision making in a clinical scenario. Through faculty supervised hands-on training, the participants will be given a better understanding of & insight into the use of surgical techniques in daily HPB surgery practice, thus enhancing surgery & improving patient care.

### **COURSE CONTENT:**

It will be a half day course with didactic lectures, teaching videos & hands-on training. Participants can practice pancreaticojejunostomy, hepaticojejunostomy & hone their skills on portal vein anastomosis techniques. An orientation on anatomy relevant to pancreatic surgery - Pre operative imaging will be also provided through powerpoint presentation. The participants will also be demonstrated techniques of pancreatic surgery with videos

<b>AGENDA – September 11-15, 2017</b>	
Introduction	
Anatomy relevant to pancreatic surgery- Pre operative imaging	
Techniques of pancreatic surgery- Technical aspects with Videos	
Performing Pancreatico-Jejunostomy, Hepatico-Jejunostomy, Portal vein anastomosis on tissues under supervision	
Discussion, feedback and Certification
